CLASS SPECIFICATION

Title: Assistant/Associate/Environmental Services Specialist (8201/8202/8203)

DEPARTMENT	ACCOUNTABLE TO	FLSA STATUS
Varies	Varies	Non-exempt

CLASS SUMMARY

Under general supervision (Assistant Environmental Services Assistant), or direction (Associate Environmental Services Specialist and Environmental Services Specialist), performs highly technical and specialized functions to preserve environmental resources and to provide public protection in the area of environmental sciences; develops, organizes, and coordinates assigned plans, programs, and/or special projects for the City and its environmental services; and acts as a primary resource in designated area(s) of expertise to City officials, departmental management, community, and industry. Plans, organizes, directs, and participates in assigned program area and/or project activities including contract management, legislative advocacy and policy planning and development. Performs related work as required.

DISTINGUISHING CHARACTERISTICS

The Assistant/Associate/Environmental Specialist is a three level flexibly staffed class, described as follows:

Assistant Environmental Specialist - This is the first level class in the Environmental Specialist classification series responsible for providing support for an assigned environmental program area while learning the diverse range of programs and services provided by the department. Positions at this level are not expected to function with the same amount of knowledge or skill level as positions allocated to the Associate Environmental Specialist level and usually exercise less independent discretion and judgment in matters related to work procedures and methods. Work is usually supervised while in progress and fits an established structure or pattern. Exceptions or changes in procedures are explained in detail as they arise. As experience is gained, assignments become more varied and are performed with greater independence.

Associate Environmental Specialist - This is the second level class in the Environmental Specialist classification series responsible for providing support for an assigned environmental program area. Incumbents are expected to work independently and exercise judgment and initiative. Positions at this level receive only occasional instruction or assistance as new or unusual situations arise and are fully aware of the operating procedures and policies of the work unit. This class is distinguished from the Environmental Specialist in that the latter performs the full range of duties assigned to the series, including serving as a team lead for an assigned environmental program area.

Environmental Specialist - This is the third level class in the Environmental Specialist classification series responsible for performing the full range of program support and lead duties. Incumbents regularly work on tasks that are varied and complex, requiring considerable discretion and independent judgment. Positions in this classification rely on experience and judgment to ensure the efficient and effective functioning of the assigned environmental program area. Assignments are given with general guidelines and incumbents are responsible for establishing objectives, timelines, and methods to deliver work products. Work is typically reviewed upon completion for soundness, appropriateness, and conformity to policy and requirements. This class is distinguished from the Supervising Environmental Services Specialist in that the latter class is responsible for managing a work group and/or assigned program within the department.

QUALIFICATIONS

(These qualifications are typically required. An equivalent combination of education and experience sufficient to satisfactorily perform the duties of the job may be substituted.)

City of San José
CLASS SPECIFICATION

Title: Assistant/Associate/Environmental Services Specialist (8201/8202/8203)
